

# I need to take a Covid-19 test

1

I need a Covid-19 test.

2

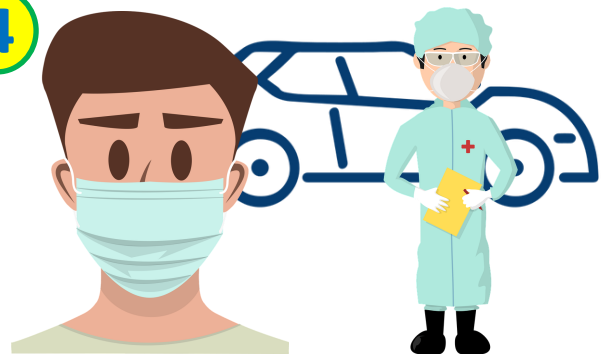

Mum or Dad will get an appointment for me with the date and time.

3

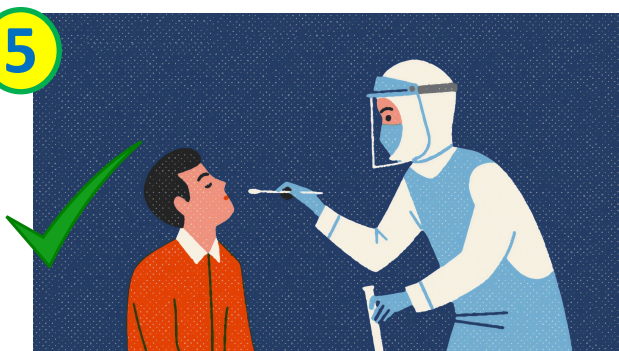

We will drive to the testing place on my appointment day and time.

4

At the testing area I will stay in the car. I can \_\_\_\_\_ while I wait.

5

The doctor will use a long swab with soft cotton wool on the end. The doctor will swab the back of my mouth and inside my nose.

6

When the test is complete I will go home. Mum or Dad will tell me when my results are ready. There is no need to worry.
