

The Rules are Changing

1

Because of Coronavirus we have all been following rules and staying at home to keep safe and healthy.

2

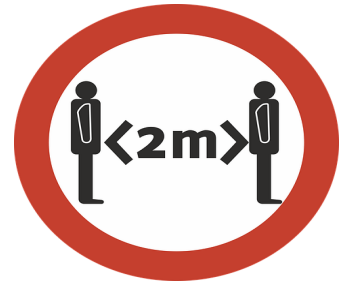

Scientists have said that the rules can change now because we are beating the virus.

3

Scientists have said that it is now safe for us to go to more places and see more people

4

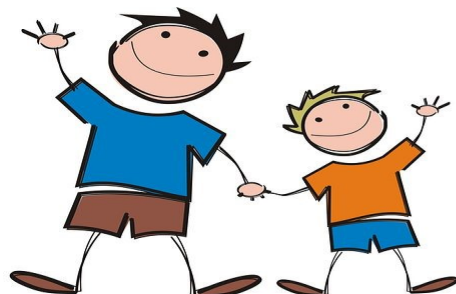

Scientists say we need to keep washing our hands and stay 2m away from other people when we aren't at home or in school.

5

If we keep washing our hands and social distancing, the rules will change again so that we will be able to go to more places and see more people

6

Sometimes it is hard when things change. Adults will help us get used to the changes so that we can stay safe and have fun.

4

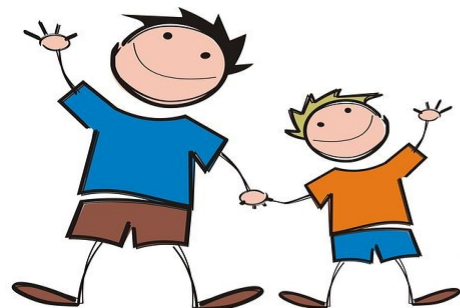

Scientists say we need to keep washing our hands and stay 2m away from other people when we aren't at home or in school.

5

We don't know how lots of things will change at the moment. We have to wait until the government give us this information.

6

Sometimes it is hard not knowing what will happen. Adults will tell us about any changes and will help us stay safe.
