

Snakes and Ladders Rules

Getting started:

Each player must choose a counter and place it on the start square.

Roll a dice and the person with the highest number goes first.

Play continues in a clockwise direction.

How to play:

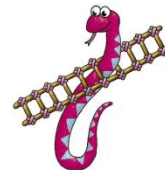

Take turns to roll the dice.

Move the counter forward the number of spaces shown on the dice. If the player rolls a six, they have another go.

If the counter lands on a square with no snake or ladder, the player is in a safe position and play moves to the next player in a clockwise direction.

If your counter lands at the bottom of a ladder, the player slides their counter up to the top of the ladder.

If your counter lands on the head of a snake, the player slides their counter down to the bottom of the snake.

How to win:

The first person to reach the finish square first.
